The Measure of Technology

See For Yourself

Wohler VIS 340

Pan & Tilt Camera Head

Wohler VIS 340

The Revolution in Visual Inspection Technology

This advanced camera system sheds light in the dark. The articulating eye of the full color camera head lets you take a close look at pipes, air ducts, chimneys, vents, cracks, welding seams, gaskets and manholes. The super bright wide screen TFT monitor provides brilliant picture quality. Your "findings" can be recorded on the included SD card.

DIGITAL MEMORY

The Camera Head

Features at a glance

- **All-encompassing:** The camera head is 360° pan and 180° tiltable. This maximum mobility allows the lens to inspect the smallest defects.
- **Small dimensions:** The camera head measures 1 1/2" (40 mm) diameter and 2 1/3" (60 mm) in length.
- **Waterproof:** fully encapsulated waterproof camera head with exchangeable dome
- **Exact location:** digital distance measurement with a resolution of 0.05 ft
- **Super bright lighting:** The LED lighting of the camera head gives crystal clear pictures, even in dark environments.
- **Digital Memory:** The new recording function allows you to save and replay the inspection on a 2 GB SD card.
- **Versatile applications:** The Wohler VIS 340 Inspection Camera is the essential tool to do commercial, residential and industrial inspections.
- **Flexible:** 90°-bends are easily negotiable for the camera. Pipes bigger than 125 mm Ø can be inspected with the help of guidance sets.

Wohler VIS 340 Inspection Camera

Pan & Tilt miniature camera provides all-encompassing view

The waterproof 1 1/2" (40 mm) camera always fits. With its 180° pan & 360° tilt camera head, it gives you an inside view into drainage pipes, air ducts and intermediate ceilings. The innovative design provides super bright lighting and simple operation, all in one heavy duty carrying case.

A crystal clear picture appears on the wide screen TFT monitor so you identify problems before they occur. The Wohler VIS 3xx Inspection Camera comes standard with a built in SD card for documentation. The state-of-the-art NiMH battery packs provide 1.5 hours continuous operation. The power supply offers simultaneous operation and battery recharging.

Battery Indicator

Shows the charging condition of the battery

Digital Distance Measurement

On-screen display of the unwheeled GRP-rod length to locate the camera head (Wohler VIS 330)

2 high power batteries

2 NiMH rechargeable batteries (12 V) provide 45 minutes of continuous operation. The main battery is charged right in the heavy duty carrying case.

Video-Output

for video signal transfer to e.g. the computer

USB-Adaptor

to connect with the computer

Color monitor

The high resolution wide screen 16:9 TFT monitor provides brilliant picture quality and is both tilt & removable.

Keypad

Extra-large keys for menu navigation and simple control of the camera head

Pan & tilt camera head

Easy and accurate inspection by a pan and tilt camera head (180° and 360°)

SD- Card

for direct documentation of the inspection

Rugged heavy duty carrying case

Camera monitor and accessories are all boxed in a heavy duty carrying case, bringing all the rugged durability you have come to expect from Wohler products.
